

Skate Frederick is happy to announce, that with the removal of the state of emergency in Maryland, along with the low positivity rate and high vaccination rate in Frederick County, we will lift our mask mandate for those fully vaccinated as of July 1st. We request that those who have not been fully vaccinated, to please continue to wear a mask in our facility to protect those around you.

We are also opening our locker rooms July 1st. Please check the board on the wall inside the front door for locker room assignments. We will continue to allow extra time between rentals to disinfect high touch areas and locker rooms.

In addition, it is no longer necessary to pre-register for freestyle or stick/shoot sessions. Please come into the pro shop to pay and sign in before the session starts like pre-Covid times. Admission will be on a first come, first serve basis.

We appreciate everyone following our protocols over the last year, in order to protect our hard-working staff and loyal customers. Here's to good health and skating fun for all in the future!

All the best,

Skate Frederick Management
